

Portrait Session

WHAT TO WEAR

Wardrobe Guide & Styling Tips

COMPLIMENTARY COLOR PALETTE

Avoid the matchy-matchy look. Instead, choose a color scheme! Pick 2-3 colors that compliment each other and coordinate the outfits around the color.

LESS IS MORE

Simplify the outfits so they don't distract. Ditch the logos, loud patterns and shirts with large graphics.

DRESS TO FLATTER

Clothing should fit nicely and not cut your body in ways you find unflattering. Things you could avoid are sleeveless shirts or excessively short skirts/shorts.

Finish shopping & wardrobe planning 1-2 weeks before your session

Do not cut your hair less than 2 weeks before the session in case you don't like it

Practice makeup or hire a makeup artist 2-3 weeks before your session

You can wear neutral or be colorful, just make sure the colors compliment each other! Use a color wheel for help, or reference Pinterest for ideas.

Make sure to wear shoes that you can easily walk in. It's not necessary to wear dress shoes, but avoid dirty, old sneakers or shoes with huge logos. Remember that less is more, and that applies to your footwear as well!

DON'T FORGET

- Baby Wipes - Stain Remover Pen - Hair Brush or Comb - Lip Gloss - Special Props - Iron Your Clothes - Hair Accessories in Case of a Windy Day - Cute Umbrella - Jacket When Appropriate

TIPS

Avoid getting a sunburn or anything that can stain your teeth. Match your makeup to your skin tone. Remove items from pockets before your session. Naps for kids, and snacks for all make for a happy family!
